

MEETING MINUTES		
Project Name	StockMaster	
Meeting Name	Backend Development	
Meeting Facilitator	Oluchukwu Ogana	
Meeting Details	Jaydon began the backend development. He purchased the scanner and printer needed for the barcode implementation of the inventory manager. This purchase was sponsored by floor coverings Regina. We created our MVC Models for the project and coding environment.	
Meeting Invitees	Jaydon Forrester, Ebelechukwu Azu-Okonkwo	
Minutes:		
Topic	Summary of Discussion/Decision	
Backend Development	We purchased the printer and scanner for our barcode implementation in the app. Jaydon will begin the integration as soon as the printer and scanner arrive. In the meantime, we would all create our IDE on github for this project and acquaint ourselves with environment
