

MEETING AGENDA		
Project Name	StockMaster	
Meeting Name	Project Designs	
Meeting Facilitator	Oluchukwu Ogana	
Meeting Details	We finalised our business case last week. We had a quick session where we talked about roles and responsibilities for this project. For the project, Oluchukwu is the project manager and product/project designer, Jaydon is the backend developer and Ebelechukwu is the frontend developer. We moved on to brainstorming ideas about the stockmaster designs. We spoke about the requirements, constraints, customer needs and the simplest design which solves the problem with a few clicks. Oluchukwu came up with some low-fi designs and should be delivering figma high-fi designs in the next meeting.	
Meeting Invitees	Ebelechukwu Azu-Okonkwo, Jaydon Forrester	
Agenda: Discuss Upcoming Meeting		
Topic	Presented by	Time Allotted
