MEETING MINUTES	
Project Name	Warehouse Inventory Management
Meeting Name	Backend Development II
Meeting Facilitator	Jaydon Forrester
Meeting Details	Our scanner and printer were available to be integrated with the backend. Jaydon presented the backend implementation and environment. Some changes were made and suggestions. Concluded the meeting on a good note as we hung out and held other non-school related conversations to get to know how we are doing
Meeting Invitees	Oluchukwu Ogana, Ebelechukwu Azu-Okonkwo

Minutes:

Topic	Summary of Discussion/Decision
Backend Development	Jaydon was able to integrate the scanner and printer purchased by Floor coverings Regina with our integrated environment. He all got started on the MVC. Oluchukwu helped with the integration and pushed to github.
Frontend Development	Ebelechukwu will be developing the HTML, CSS and Javascript files. We discussed the pages and the figma files were the main resource. Oluchukwu would be inspecting the styling to match figma designs. This meeting was held on google meet on Monday 28th October 2024 from the period of 7pm to 7:30 pm

Action Items: Frontend Development

Description of Action	Assigned to	Date Required
